WEDDING PHOTOGRAPHY TIPS

- *Scout your photo locations in advance.*
- *Try to time your portraits just before sunset for the best natural light and a beautiful golden glow.*
- *Request an unplugged ceremony. Asking guests to keep their phones off will help your photographer capture all of the important moments without distraction.*
- *Choose a photographer you feel relaxed around. When you feel comfortable, you'll look more natural on camera, too.*
- *Don't be afraid to communicate your must-have moments before the day.*
- *Trust your photographer! These guys are seasoned professionals and will happily guide you through the process with their own knowledge and suggestions, too.*
